

Class 11

Welcome back after a long Summer!

We have had a great first half term and have really hit the ground running. Our year started with a trip to the amazing Robinwood. Back at school, we took our learning from Robinwood further by creating our own promotional leaflets and videos. We have also been learning about Ancient Egypt in history lessons and how we see light in science.

During our second week back, the Year 6 children had three days away at Robinwood. It was amazing!

The children had a fantastic time trying lots of activities they've never done before. We did: zipwire, giant swing, trapeze, caving, archery, raft building and canoeing.

The children pushed themselves and were able to work together as a team and conquer their fears!

The children had a great time, in particular laughing at the scared faces of their teachers!

In history, we have been learning about Ancient Egypt. We have learnt about the importance of the River Nile to the Egyptian people, why the Egyptians built the pyramids and about some of the leaders of Ancient Egypt. The children took to the laptops and books to research a chosen Pharaoh for a class debate about who was the greatest Egyptian pharaoh.

In science, we have been learning all about light. We have learnt that light travels in straight lines and can be reflected. The children created presentations for the class to demonstrate how light helps us to see.
