

Class 11

This half term, Y6 completed their SATs. Everyone tried really hard and we are so proud of them. The children arrived early in the morning to join in our breakfast club before settling down to their tests.

We have enjoyed Maths and have learnt to apply our knowledge to real-life situations. We have been calculating the water usage of an average family in a day, a week and a year. We presented our findings.

Local artist David Hockney inspired our artwork this half term. We looked at his paintings of landscapes and chose a part of the landscape to inspire our paintings.
